

POLITICAL APP

EMPOWERING THE COMMUNITY
THROUGH MOBILE...

"Did you know that you look at your phone at least 85 times a day..."

| www.smartspaceafrica.com

STORM APP

The storm is a mobile phone solution that has been designed and built by Smart Space Africa. It is one of its kind that has also been programmed such that your messages, agenda and image posters now have a chance to be integrated into the mobile phone platform and populated whenever

1. You call
2. You are called
3. You miss a call
4. You tried calling.

Now you have a chance to be part of this almost irreplaceable inter phase, all attempts to **REACH** your team or party members has now been made more efficient. You will now have a chance to populate your messages within their circles with such ease and precision that cannot be achieved by any other form of media. Sign up with us today and take your county, constituency and ward by 'STORM' with your clear and precise communication.

"The STORM solution like no other... takes it all to the mobile phone..."

HOW IT WORKS

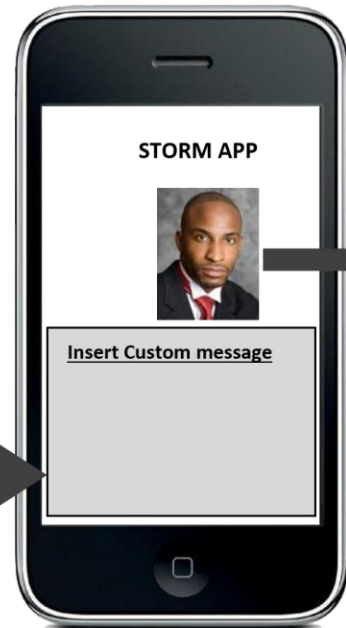

1

Download App from
GOOGLE PLAYSTORE

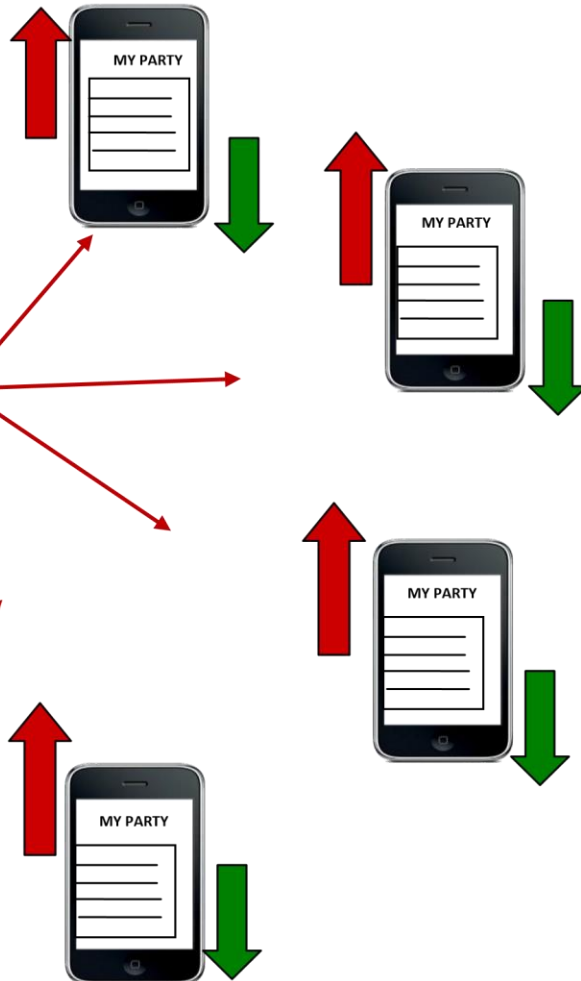

Open and insert
custom message
that will be seen by
your callers

2

Your photo
will be
inserted during
App
customization

3

Your engagement with
your mobile phone when
**YOU CALL, YOU ARE
CALLED, YOU MISS A CALL
or YOU TRIED CALLING...**
sends out a message.

Your contacts receive
ONLY one message in a
day regardless of the
number of times you
engage with them in that
particular day.

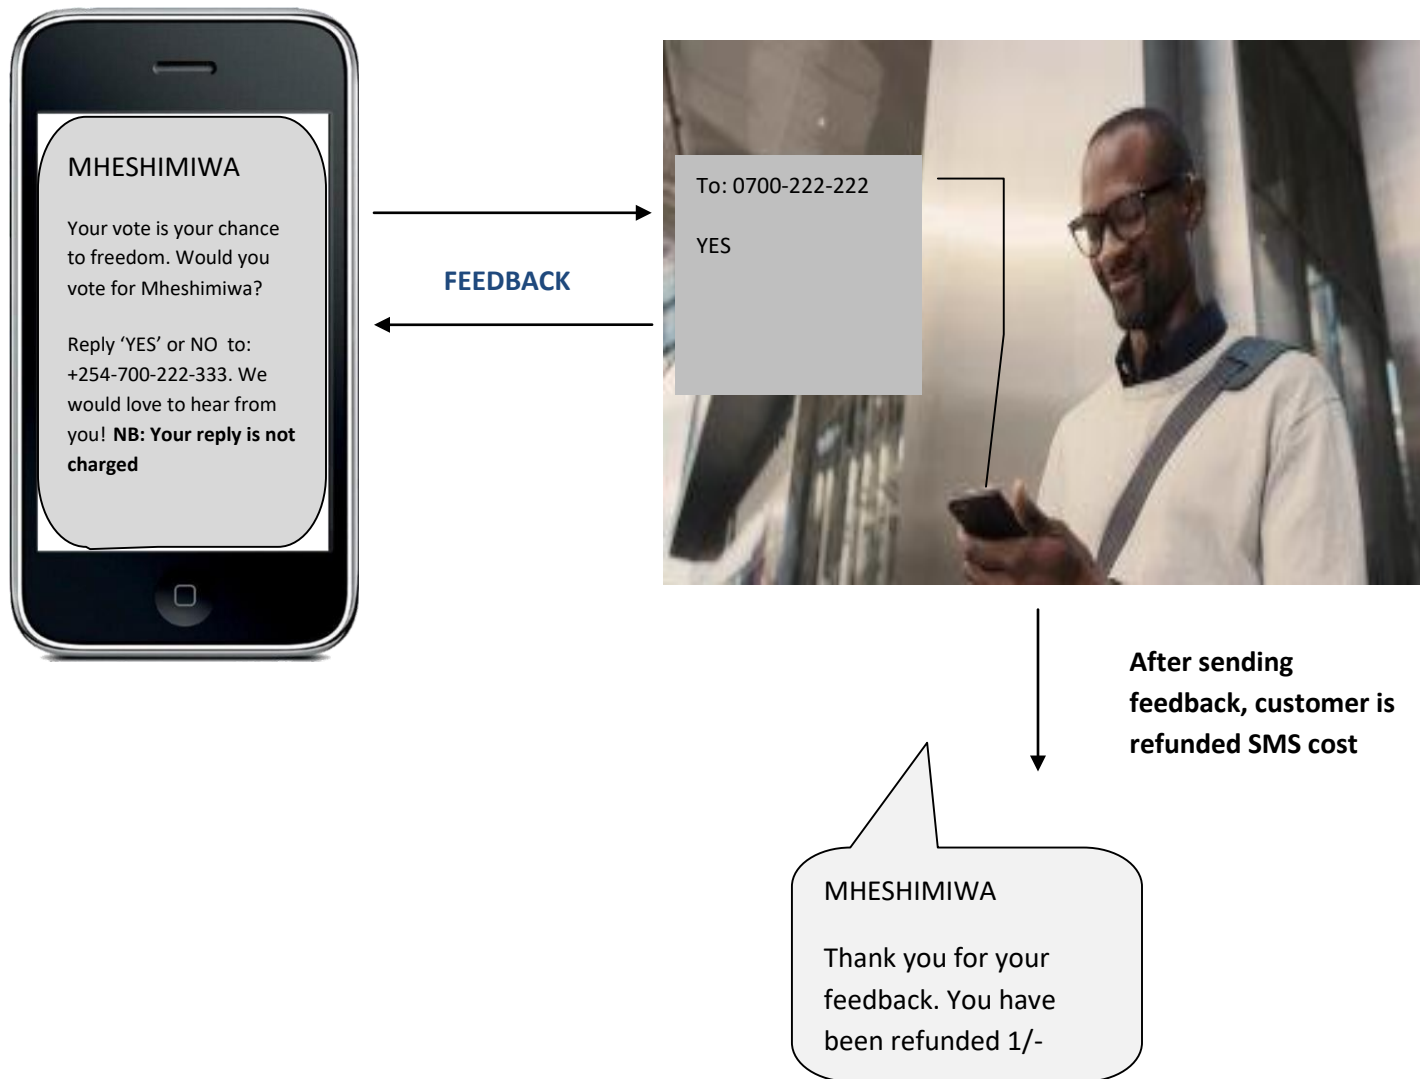

PRECISELY....

↑ OUTGOING CALLS
↓ INCOMING CALLS

FEEDBACK

Smart Space Africa realizes how important feedback is from your constituency. We have gone further and enabled a two way communication whereby, your voters, after receiving the communication message can send back feedback required or as prompted by you.

Your customers' feedback will be free of charge. When they reply, an automatic cost refund of the SMS cost will be sent back to them.

ABOUT SMART SPACE AFRICA

Smart Space Africa; a mobile advertising expert in Africa creates customized solutions for institutions and organizations that want to reach their customers wherever they are in Africa and enable them engage and create value for their brands, products and services, in the most precise, effective and visible manner that resonates with communication objectives of the organization.

With access to the leading mobile advertising platforms that have no territorial boundaries, Smart Space Africa creates solutions that position companies without compromising on communication. With access to more than 20 African countries, we have network footprint set wide in most parts of the continent, positioning brands and products to over 300 Million consumers in Africa every day.

Through partnership, we have developed a range of services and products to assist companies with their mobile strategy, customer retention, communication, database building and management, lead generation, incentive programs and opportunities to generate additional income using our mobile solutions.

LET'S DO THIS!

THANK YOU...
